South. One of the correspondents above reever expect to enjoy while they remain in the South. One of the correspondents above re-

ferred to, writing from Mississippi, says : terred to, writing from Mississippi, says:

Wherever I go in this section I find out people
claiming and devising means of escape. I am a
strong believer in the destrine of emigration, and
have made known my views to many hereabouts,
jut only in a quiet way, as I believe that any person who should undertake believe that any person who have the same of the perundertaked the same pering of the colored people are going away from
iere however, in the fall, and there is no power in
viouses or other inducements that will keep them
iere.

Another of these correspondents, writing from Ocean Springs, Miss., alludes to the mod-ern system of peonage, and states that it is be-ing used freely as a means of holding colored ing used freely as a means of holding colored people in subjection and supplying "convict" labor in the interest of the bereaved former slave owner. It seems that there are at present upward of 4,000 of these "convicts," most of them colored, and, in view of the case and rapidity with which slaves of this character are manufactured, the State penitentiary bids fair to become the most important institution in the State. the State. As an illustration the writer says

Our courts met the other day and sent nine persons at one sitting from this Jackson. County. One
of these was sentenced as an 27 sory in an attemated murder. He was rasing by where those
who did try to commit the deed were standing,
and one of them asked him when he weat by a
certain mean's house to tell him to come down
there, and he did as he was requested. When they
brought the guilty parties before the court this
man was called as a witness, but was never swont
or called upon to testify. When the Judge passed
the sentence he was included with the rest who
were sent to the penticulary for nine years.

A correspondent, writing from Vidalia, La., states that the exodus from that section has nearly ceased for the present, but that "the colored people are working for and saving money with which to emigrate in the forth-coming fall and winter. They are, however, still leaving from the Natchez side for Kausas.

BURNETT's Coccaine remains longest in effect. What intense pain is caused by toothache. How many sleepless nights and weary days are due to its raging influence. Yet the true cause of all this torment is decayed seed, produced by neglect and inatention. Could only those who have at present good, sound-teeth fully realize this fact, how careful would they be to keep their teeth in good condition. To all such we will give a word of advice. Clean your teeth daily with a good dentifice, such as Tattaston's Ivony Prant Tooth Powper, It will preserve your best brough life, remaye all befar or extraneous matter, keep them clean, sound, and white, and toothache, with all its horrors, will be unknown.
